

## 2013 NIA Postdoctoral Fellowships

The Population Studies Center expects to have openings for postdoctoral fellows sponsored by National Institute on Aging. Positions to start on or about September 1, 2013. Applicants must have a Ph.D. in demography, public health, or one of the social sciences (e.g., sociology, economics, psychology) at the starting date. Background in aging is desirable but not required. Selection will be based on scholarly potential and compatibility with the interests of a faculty mentor. Fellows devote most of their time to independent research, but may also take selected courses and/or teach on a light-load basis. Positions offer exceptional opportunity for collaboration with staff of the Population Studies Center and Survey Research Center on major projects in the U.S. and overseas.

Term of appointment two years. Stipend commensurate with experience, based on levels mandated by NIH. Applicants must be Citizens or Permanent Residents of the United States at the time of application.

Screening of applications will continue until positions are filled with full consideration being given to those applications that are complete as of January 14, 2013. Send letter of application, curriculum vitae, 1-2 page statement of research interests detailing your planned research\* while at PSC and examples of written work via email to Ms. Heather MacFarland ([hmacfarl@umich.edu](mailto:hmacfarl@umich.edu)). Also, please arrange for three letters of recommendation to be sent directly from the author to Ms. MacFarland via email. All documents should be in PDF format and contain the applicant's last name in the file name. An Affirmative Action/Equal Opportunity Employer.

\*Because these positions are sponsored by the National Institute on Aging, it is imperative that a significant portion of your proposed research be aging-related.
