

## **JOB OPPORTUNITY** **ANSIRH seeks an interviewer**

Advancing New Standards in Reproductive Health (ANSIRH) is in need of a research analyst to conduct participant recruitment and phone interviews in English and Spanish for the Turnaway Study and other studies. The Turnaway Study is a large national study of the effect of abortion and unintended pregnancy on women's lives and is currently following 1000 women from across the country.

The research analyst will be responsible for carrying out eligibility screening, informed consent and other recruitment activities as well as semiannual telephone interviews, maintaining records of call attempts and successes, protecting confidential information and responding to training and quality improvement measures, and conducting literature reviews. Interviews include sensitive topics such as abortion, drug use, pregnancy intentions and domestic violence. Comfort discussing those issues and fluency in Spanish are essential.

### About UCSF

The University of California, San Francisco (UCSF) is a leading university dedicated to promoting health worldwide through advanced biomedical research, graduate-level education in the life sciences and health professions, and excellence in patient care. It is the only campus in the 10-campus UC system dedicated exclusively to the health sciences.

### Required Qualifications:

- Bachelor's degree in public health, psychology or similar field
- One year experience working in reproductive health research, abortion counseling, or clinical care
- Excellent interpersonal communication skills in-person and over the phone
- Fluency in English and Spanish (oral and written)
- Highly organized, able to multi-task, and demonstrated success working in a fast paced environment
- Ability to work with people from diverse communities
- Positive attitude and a sense of humor

### Preferred Qualifications:

- Flexibility to work non-business hours;
- experience conducting telephone surveys;
- experience using CATI or similar data collection and management systems;
- experience conducting literature reviews using PubMed or other similar search engine;

Fingerprinting and background check required.

Qualified candidates should apply through the UCSF careers website at <http://ucsfhr.ucsf.edu/careers/> using requisition # 38964BR
