

JOB OPPORTUNITY

Research Analyst

Advancing New Standards in Reproductive Health (ANSIRH) conducts cutting-edge social science research about reproductive health and abortion care, including studies to examine the impact of abortion restrictions on women's lives. ANSIRH seeks a Research Analyst to manage and analyze abortion data from the California Medi-Cal program, as well as data from studies for the Evaluation of Abortion Restrictions project, the Reproductive Empowerment project, and other studies to be assigned.

Under the general supervision of the Project Director and Principal Investigator, the Analyst will assist in developing analysis plans, manage, clean and analyze project data; develop tables for manuscripts, draft methods and research results for manuscripts, participate in the dissemination of research findings via manuscripts and presentations, and provide other research/project support as needed. The Analyst will work within a multi-disciplinary team and will contribute to other research projects as needed.

Position requirements include experience with research design, implementation, and analysis.

Required qualifications:

- Master's Degree in public health, social sciences, or similar field
- 1-2 years of experience working in public health and family planning
- Advanced knowledge of Microsoft Office, including Word, Excel and PowerPoint
- Training in quantitative research methods
- Demonstrated ability to clean, code and analyze data in STATA statistical software
- Familiarity with IRB guidelines, HIPAA, and data security
- Excellent written and verbal communication skills
- Ability to manage multiple projects simultaneously and to prioritize tasks
- Ability to work independently and as part of a team
- Strong statistical analysis, STATA, database management, writing, information technology

Preferred Qualifications:

- 2 years of experience working in research, preferably reproductive health
- Understanding of clinical practice, specifically in a reproductive health setting
- Experience with UCSF policies and procedures and research administration, including UCSF CHR, MyResearch and RedCap

Qualified candidates should apply through the UCSF careers website at <http://ucsfhr.ucsf.edu/careers/> using requisition **#41275BR**.
