

**Postdoctoral Research Scientist in the Lifespan Developmental Psychology Lab at Brandeis University.** [<http://www.brandeis.edu/departments/psych/lachman/>].

Applications are invited for a postdoctoral position to work on longitudinal and intervention projects in the areas of personality, cognition, and health in adulthood.

The position involves conducting research on multiple studies in an active lab.

Opportunities include secondary data analysis of longitudinal data from diary studies and from the Midlife in the United States (MIDUS) study [[www.midus.wisc.edu/](http://www.midus.wisc.edu/)] and collaboration on experimental intervention research through the Boston Roybal Center for Active Lifestyle Interventions (RALI) [<http://www.brandeis.edu/roybal/>].

Primary responsibilities will include project management and data analysis; preparation of manuscripts; and participation in interdisciplinary research groups. Qualifications include a Ph.D. in the social, behavioral or health sciences; relevant research experience; strong statistical and writing skills; good communication skills; and the ability to work effectively with others. Applicants should have a background in at least one of the following substantive areas: 1) cognitive aging, 2) physical activity, 3) behavior change, 4) intervention research, 5) health psychology, and have expertise in experimental and developmental research methods. Proficiency in longitudinal data analysis is required and experience with multilevel modeling, latent growth models, and structural equation modeling is highly desirable. The position provides salary and benefits consistent with those for NIH postdoctoral fellows, and the appointment is for 2 years. Inquiries may be directed to Dr. Margie Lachman via email

([lachman@brandeis.edu](mailto:lachman@brandeis.edu)). To be considered for the position, candidates should submit their application materials to: [postdocpsych@brandeis.edu](mailto:postdocpsych@brandeis.edu). Please include: a letter of interest, curriculum vitae, statement of research, statistical experience and career goals, and relevant publications. Please ask three referees to submit confidential letters of recommendation. Review of applications will continue until the position is filled. The position begins on August 1, 2017, with some flexibility in the start date.

*Brandeis University is an equal opportunity employer, committed to building a diverse intellectual community, and strongly encourages applications from women and minority candidates*
